We wouldn't call it Fire & Ice if it didn't come with a kick! Fire N' Ice is a Natural, Low Glycemic, Fat-Burning, Energizing Iced Tea that is Diet Friendly—Fire N Ice Tea is much more than a convenient soda/energy drink replacement: it's a highly energizing, multi-functioning dietary tonic.. Developed by lead researchers using the science of thermogenics, this delicious iced tea is specially designed to help you maintain a healthy body weight while provoking an increased metabolic rate, enabling your body to go from Fat-Storing to Fat-Burning. This unique formula supports your body's ability to burn fat and store energy, giving you longer, better workouts and more efficient weight loss management. It also comes packed with antioxidants, vitamin B, and buffered caffeine to give you an edge when it matters most.

Fire & Ice Tea is an ideal soda (or energy drink) replacement for diet/health conscious consumers. Fire & Ice Tea has been formulated to be a low-glycemic blend of organic fruits and vitamins that not only tastes good, but is actually good for you. When mixed with 8 to 16 ounces of water it will quench your thirst while providing powerful nutritional support for decreasing your appetite.

DYNAMIC THERMOGENIC PROPERTIES

Fire & Ice Tea has been specially designed to increase support to your body's thermogenic capabilities. It uniquely supports your ability to burn fat and store energy. It contains vitamin B, potassium, buffered caffeine and green tea compounds that combine to help support you in your weight loss program, while boosting your energy level.
