

# The A.G.E. Pill

Anti-GlycationEXTREME

## LOOK MORE YOUTHFUL AND FEEL AS IF YOU WERE IN YOUR 20'S AGAIN.

The AGE Pill's Super-nutrients Accelerate Your Body's Reversal Of Aging Agents. Aging is the result of decay and degeneration in our bodies. If we can slow or even reverse decay and degeneration by providing the proper nutrients, we should be able to slow and even reverse the effects of aging. The AGE Pill™ provides specialized super nutrients to the stem cells, which enhance and allow the natural processes of the body to operate more efficiently... to do what you want to do, so you can be what you want to be. Now you can be revitalized, and feel as youthful as if you were 20 again.

## THE AGE PILL'S SUPER NUTRIENTS ACCELERATE YOUTHFUL ENERGY AND VITALITY.

When we were very young, our bodies grew quickly, with an abundance of highly active stem cells. Stem cells are the master cells in our bodies that are able to transform into any type of cell that we need. As we grew, our stem cells divided and multiplied into the trillions of cells that make up an adult body, and replaced the cells in our body faster than they wore out and were discarded.

As children, we also had all of the energy that we needed to go all day long. This energy is derived from metabolizing glucose sugars to create electrical energy. As our bodies break glucose down through oxidation to release the energy that powers the cells in our body, a plaque like residue was left over. This residue—known as A.G.E. (Advanced Glycation End-products)—accumulates over time, depositing an inhibiting coating over proteins, reducing optimal stem cell performance.

As the stem cells rebuild new cells and maintain themselves, Lipofuscin is formed. Lipofuscin is metabolic waste, a cellular sludge that builds up over our lifetime that clutters cells and greatly inhibits biological functions. It is difficult for our cells to produce the energy they need when this thick sludge inhibits flow and function.

But what if we got some help to clean up the mess and dump much of the accumulated trash left behind by glycation and lipofuscin? Then the stem cells in our bodies should be free to function again at a high level. Scientists now theorize it may well allow our bodies to again produce energy at the same levels as when we were in our prime, much like if we were in our 20's again.

## THIS IS WHAT SETS THE AGE PILL™ APART FROM OTHER ANTI-AGING PRODUCTS, INTO THE REALM OF POTENTIAL YOUTHFUL REGENERATION. THE AGE PILL™ PROVIDES THREE CLASSES OF ADVANCED, SPECIALIZED SUPER-NUTRIENTS TO THE STEM CELLS TO DELIVERING INTENSE SUPPORT FOR:

1. Removing glycation plaque buildups that inhibit intercellular proteins.
2. Reduction/removal of toxins and cellular sludge resulting from biological activity creating lipofuscin.
3. Significantly increasing ATP-providing Biological Hydrogen to greatly amplify cellular electrical energy. Theoretically, this process could increase electrical energy within the stem cells three or four fold, to where you may "feel like you were 20 again!"

Adenosine Triphosphate (ATP) and biological hydrogen are believed to be key in supporting the releases of vast stores of electrical energy to your body. Your enhanced, elevated energy could help your cells to rebuild, rejuvenate and work at more optimum levels, potentially alleviating the ravages to our bodies that occur over our lifetime. Our powerful and unique synergistic blend, potentially maximizes The A.G.E. Pill's nutritional content, providing intense support for removing glycation buildup, reducing toxins and increasing ATP, helping you look and feel like you were in your 20's again.

*Help combat the cellular-level functional issues that occur as a result of aging, by increasing ATP—providing biological hydrogen to help amplify cellular electrical energy, and cleaning up cellular waste—allowing the cell to work at potentially optimal levels of youth.*

## BE YOUNGER, MORE ENERGETIC, AND YOUTHFUL. BE YOU AGAIN!

# BalanceD

natural FIBER supplement

Sisel is setting a new standard in the category of fiber by creating Balance-D™. Fiber is important to everyone's diet, but there are other basic elements that are often overlooked that are vital to a healthy gastrointestinal tract. These elements are prebiotics, probiotics, fiber, and Vitamin D. Balance-D combines all of these, creating a synergistic blend that offers optimal digestive support.

## *Why are these important?*

**Prebiotic:** Chicory root helps create an ideal environment where probiotics can thrive. Prebiotics are food/fuel for probiotics.

**Probiotic:** Rhamnosus, Acidophilus, and Bulgaricus are all infused in Balance-D. When these probiotics enter your body, they flourish because of the prebiotic found in Chicory root. When probiotics are broken down, they eradicate the harmful bacteria from your GI tract.

**Organic microfiber:** Apple, Chicory root, and Maltodextrin are the microfibers that work by creating long chain polymers that grab, bond, and remove excess waste from the lower intestine.

**Vitamin D:** Balance-D contains 300IU of Vitamin D per serving, which helps your body absorb calcium, promotes bone growth, and is linked to fighting against breast cancer, colon cancer, prostate cancer, heart disease, depression, weight gain, and other maladies.

***Balance-D stands alone in the world of fiber supplements.***

***It is the most comprehensive, effective, and balanced fiber product on the market.***

## **FEATURES & BENEFITS**

- Helps to create an ideal environment for probiotics to thrive.
- Helps your body absorb Calcium with Vitamin D.

# BODY SHIELD

Body Shield contains organic fulvic acid, which is loaded with Fulvates and trace minerals. The formula is also fortified with Limu Moui and kelp. Researchers believe that organic fulvic acid offers massive support for the body; they theorize that it promotes the healthy function of the body's own natural processes that support detoxification, cellular cleansing, and nutrient uptake.\* Scientists postulate that organic fulvic acid can, like a molecular train, transport nutrients in and take heavy metals out.\* The Fulvates in Body Shield are potent antioxidant super-scavengers.\* In addition, the seaweed extracts support healthy thyroid and immune function!\*

## **The following are scientific reports of the benefits of Fulvates (which are in **Body Shield**, enhanced with Limu Moui):**

- Increased energy
- Alleviated anemia
- Chelated body toxins
- Reduced high blood pressure

## **Tom Mower on Body Shield:**

Body Shield chelates [forms a ring around] toxic heavy metals and removes them by making an ionic complex so small they could be excreted in saliva too as well as eliminated through skin and your excretion system. So taste a toxic metal. It is bound and being discharged. You might not like the taste but inside the cell it is more than distasteful it is very destructive. So spit it out or let it go through the digestive system and out. Either way kiss it good by and be glad you can do something about this insidious toxin with Body Shield.

## **Testimonial from Angelina Kovac:**

Recently I was diagnosed with Pancreatic cancer (Adenocarcinoma) which was found by accident during a CT scan for bowel inflammation issue. Fortunately, it was found early as it was in the tail of the Pancreas and no symptoms to indicate its growth. I must say I wasn't freaked out as I always had a plan of action because of my belief in Sisel's products. I had surgery to remove the cancerous section, as well as my spleen. I am pleased to say that the surgeon informed me that they got it ALL.... I must say it was an unpleasant post-operative time with much pain and stress on my system. But I am supported by Sisel's amazing products to help me recover and beat this particular health issue. Here is my daily routine of Sisel products: TSX x1, FuCoyDan x3, Body Shield x2, Eternity x1, SpectraMaxx x1, Supra Omega Plus x6, Encompass x 6, Balanced D x6, Brain Vitality x2 for Turmeric (180x more Bioavailable than normal Turmeric)

I am very grateful to Tom Mower and his amazing products that help our bodies deal with compromised immune systems due to all the toxic chemicals and pathogens breaking down our bodies. I am convinced that i will be a survivor and regain good health. Thank you Tom!

Question (to Tom Mower):  
*Is it possible for you to comment on the impact of this product for the thyroid?*

Response:  
*Sure. It positively effects the thyroid because it contains organic iodine that is chelated ionically with organic fulvic acid. This increases delivery and energy at the cellular level. It will also exchange electrons with radiation that may accumulate in the thyroid thus neutralizing it demand that damages cells.*

We live in a day and age where our foods have become so nutritionally incomplete and in many instances detrimental to our health. In fact, we are faced with food products that lack as much as 25-75% of the nutritional value that our parents and grandparents had from the same fruits and vegetables. Unfortunately, as we are currently experiencing a decline in the essential nutrients necessary to support proper health we continue to see an exponential increase in the production of new chemicals in the forms of household and industrial solvents, cleaners, volatile organic compounds, dioxins, phthalates and the list goes on. In order to fuel essential biological processes the right nutrients must be present. Vitamins and ionic trace minerals are essential for cellular enzymatic functions, biochemical processes, protein and enzyme synthesis, ATP production, metabolic vitality, vital organ function and health, a robust immune system, and regulation of cell and tissue growth.

- Elderberry juice was used to treat a flu epidemic in Panama in 1995.

## Lactoferrin:

- Helps to rebuild neutrophils, which destroy microorganisms.
- Has well-documented anti-infective, immune strengthening, antioxidant, anti-inflammatory, and anti-cancer effects.

- Studies have also shown that curcumin induces programmed death of colon cancer cells.

## Star anise:

- Anti viral and anti-bacterial
- Helps to fight Candida albicans (a yeast - form of fungi) that occurs naturally in the human mouth, throat, intestines and genitourinary tract. ### **Undenatured Type II Collagen**

Undenatured Type II Collagen has been shown in studies and trials to help the body repair and rebuild joint cartilage – reducing joint pain, increasing joint mobility and flexibility, and promoting long-term joint health. Taken from the chicken's sternum cartilage, Undenatured Type II Collagen supports the immune system in reducing inflammation and restoring cartilage. Extensive research and clinical studies have shown Undenatured Type II Collagen to be both safe and effective in supporting joint health.

Undenatured Type II Collagen is made using little or no heat and very limited processing as this can fundamentally alter the molecular structure of the protein, rendering the collagen ineffective as an immunomodulator.

Since this tea has caffeine in it, it will definitely give you a boost of energy. However, sencha tea has an amino acid called theanine, which helps calm your body down. Also, green tea does not have much caffeine in it either. This means that the boost in energy that you get will not be as strong as coffee, but it will be more relaxing and steady.

**Sencha green tea has an uplifting and refreshing taste to it. Resulting in a nutty/fruity aftertaste. Sencha is a great tea to try if you haven't already. With all of the benefits it has and its refreshing taste, it can make for a perfect morning drink to start your day right!**

# SiselRIPT

postWORKOUT

## Enhanced Muscle Protein Synthesis Support

*Patented, Clinically Proven Formula*

**SiselRIPT™** provides the optimal ratio of essential amino acids for maximum muscle growth and development. Backed by years of proven research and trials, our incredible muscle product gives you the edge you need when you need it most.

## MORE FOR YOUR MUSCLE

**SiselRIPT™** offers a state-of-the-art way for you to grow, repair and maintain muscle mass. Created with long-term muscle health in mind, **SiselRIPT™** is designed to support optimal muscle protein synthesis. With more than \$20 million in research and 23 human trials, this unique, patented formula is clinically proven to provide superior muscular growth, regeneration, and conditioning.

## THE MYSTERY OF MUSCLE PROTEIN SYNTHESIS

Our muscles rebuild and regrow through a process called Muscle Protein Synthesis. Amino acids are the building blocks for this process, but not all amino acids are equal. Your body easily produces most amino acids as it needs them; but some—called Essential Amino Acids (EAA)—cannot be produced and must be included in our diet in order for our bodies to use them to build protein. Scientists have determined that the efficiency of Muscle Protein Synthesis is dependent on the ratio of EAA involved in the synthesis. If the ratio is too high, oxidation can occur. Too low and the body cannibalizes the EAA from other muscles or organs. Many products have tried, but none have come close to this super-efficient ratio. Until now.

## THE PERFECT RATIO

Based on these multi-million dollar studies, **SiselRIPT™** is able to provide the most efficient ratio of Essential Amino Acids needed for Muscle Protein Synthesis. One 5g serving offers more support for muscle growth than larger doses of many other muscle building products.

# SiselSafe® CBD

## Full Spectrum HempEXTRACT

### WHY SISELSAFE® HEMP EXTRACT PRODUCTS?!

- Sisel's CBD products are made with Hemp Extract from the flower, leaf, and stalk, NOT Hemp Oil from the seed. Hemp oil has 25 Parts Per Million (PPM) of CBD, whereas Hemp Extract has 150,000 PPM of CBD. You get virtually no therapeutic benefit from Hemp Oil. **Consider the source.**
- Sisel's CBD products are sustainable, renewable, and made in the USA under strict quality controls. Sisel works directly with American farmers to ensure sustainable practices and that our hemp is organically grown without any chemicals. This top to bottom quality, consistency, and safety is part of the **Sisel Safe promise and why we call it SiselSafe CBD.**
- SiselSafe CBD products use carrier oils that contain Medium Chain Triglycerides (MCT) like coconut or palm kernel oil, because they are easier for the body to absorb. **Better absorption, better results.**

### SISELSAFE® CBD PRODUCTS MAY HELP WITH:

- ✓ Calming the mind, helping to optimize the body
- ✓ Promoting a healthy response to exercise activity
- ✓ Acting as a neuroprotective against oxidative stress
- ✓ Encouraging a healthy immune response
- ✓ Supporting the digestive process
- ✓ Easing tension and stiffness before, during, and after activity
- ✓ Soothing sore joints and muscles
- ✓ Providing fast-acting, deep-penetrating heat
- ✓ Easing and shortening post-workout recovery

### OUR BODIES WERE DESIGNED TO INTERACT WITH CANNABINOIDS

In the 90's, scientists discovered the Endocannabinoid System (ECS), which includes cell receptor sites — CB1 and CB2 — found throughout the body and skin, gastrointestinal, reproductive, immune, and central peripheral nervous systems.

Cannabinoids are neurotransmitters produced in the body that bind to these receptor sites. Cannabidiol or CBD is one of the many cannabinoids that can influence these receptors to promote an array of potentially positive results, including activating TRPV1 receptors known to moderate inflammation, pain perception, and body temperature.

CBD can also increase the amount of Anandamide, or the "bliss molecule," which plays a part in the neural generation of motivation and pleasure.

Hundreds of studies on this potent plant extract validate its use for centuries. More and more are being educated on the benefits of maintaining healthy cannabinoid levels and what it can mean for overall lifestyle.

### FEATURES OF SISELSAFE® CBD PRODUCTS

- Tested by multiple labs to ensure safety and potency
- Non-psychoactive formula containing 0.3% THC, less, or none
- Made in the USA in a GMP Certified and FDA registered facility

**SISELSAFE® CBD IS GROWN ORGANICALLY WITH NO PESTICIDES, HERBICIDES, OR CHEMICAL FERTILIZERS, AND MAY CALM THE MIND, HELPING TO OPTIMIZE THE BODY**

## CBD BENEFITS

### *Calms the Mind from Daily Stressors, Helping to Optimize the Body*

When you are stressed your body tries to divert resources from other critical systems in order to cope. Run too long in this mode and your health and performance can suffer. SiselSafe CBD Hemp Extract can help calm the mind. Some describe its soothing effects as a warm bath. It could be the perfect choice from daily stressors. Once you reduce stress you allow your body to function more optimally.

### *Promotes a Healthy Response to Exercise Activity*

With a body free from mental and physical stress, you can focus your energy on amplifying your exercise routine. SiselSafe CBD Hemp Extract can help your body recover faster from those workouts and other physical activities by promoting a healthy, more balanced response.

### *Encourages a Healthy Immune Response*

SiselSafe CBD Hemp Extract can potentially modulate your body's natural immune system. SiselSafe CBD may help achieve better homeostasis because sometimes that response needs to be elevated. Other times your immune system needs to calm down so that it doesn't go against healthy cell function.

### *Acts as a Neuroprotective Against Oxidative Stress*

SiselSafe CBD Hemp Extract may help reduce oxidative stress on the brain and nervous system which in turn can support the growth and development of new neurons.

### *Supports the Digestive Process*

SiselSafe CBD Hemp Extract may help maintain a healthy digestive system by supplementing the Endocannabinoid System. This is important in digestion as it effects hunger signaling, motility, gut permeability, and gut microbiota. CBD can also support the stomach lining.

### *Soothe Sore Joints and Muscles*

SiselSafe® CBD Full Spectrum Warming Lotion's dual-action warming agents and CBD work together to ease tension and loosen stiffness before, during, and after activity. Apply it to your neck, shoulders, back, hands, or anywhere that you may have physically-induced or stress-related muscle tension and soreness.

### *Provides Fast-acting, Deep-penetrating Heat*

Warming agents Vanillyl Butyl Ether (VBE) and Wintergreen Oil provide a heating sensation in two distinct ways. VBE stimulates the receptors at the nerve endings to produce a feeling of warmth without an actual temperature change. It goes to work immediately — warmth can be felt within five minutes and lasts up to two hours. Wintergreen Oil counteracts underlying discomfort, causes dilation of the capillaries to increase blood circulation, and has a pleasant fragrance.

### *Helps with Post-workout Recovery*

Rub SiselSafe® CBD Full Spectrum Warming Lotion deep into muscles and on joints 10–30 minutes before activity to warm up, help your muscles relax, and make your workout more enjoyable. After your workout or any prolonged or intense stress or strain, this soothing lotion works great in therapeutic massage for deep stress relief.
