

SiselSafe CBD testimonials

Don Scott, from Bruce Abbey

I started taking this about a month ago to see if it would help stop nighttime leg cramps and to get a better nights sleep. It works. I take about .75 ml under the tongue at bedtime.

Roberta Ferreira

Wonderful Results with CBD Full Spectrum Hemp Extract! My 89 year old mother has been complaining for YEARS about not being able to get a good nights rest. She would toss and turn until 2 am and would wake up exhausted. It did a number on her energy level and has impacted her life tremendously. When she recently asked me for sleeping pills, I had her try the Sisel Safe CBD Full Spectrum Hemp Extract. She takes 1 dropper half an hour before bed and reports that she falls asleep as soon as her head hits the pillow. She doesn't ever want to be without this awesome product. She really has no idea what she is taking, she just knows that it works, and I feel great about it because I know that it is SAFE too! Thank you Sisel!

Alisha Dawn

I've been on the AGE pill for 2 months, new hair growth, nails are thicker and longer, sleep better, and no migraines. I ran out on Friday, have barely slept, and the migraine is horrible. I will not make the mistake of running out again.

Christy Kopecky

Okay so it's been 48 hours since our son starting using Sisel Safe CBD. What we are seeing so far, Increased energy, Increased concentration (he cleaned his room), Says he slept so good (most nights he tosses and turns and talks in his sleep, never feels rested), He seems calmer and not so easily aggravated, Seems happier (BIG PLUS), He says he feels calmer and he's up this morning happy!! This is huge! We will continue to follow and share his progress.

Barbara Grinde

OMG, 24 hours on the CBD Oil, I slept so sound and so fantastic and woke up so refreshed this morning, as did my husband. And woke up with no pain!!!! First time in over 1 year. Loving our Sisel Safe CBD Oil.

I received our new SiselSafe Full Spectrum Warming CBD Lotion in my shipment from Sisel yesterday. It came at a great time. With wearing this boot on my left foot I do not have a shoe that exactly matches the height of it so my hip hurts by the end of the day and into the morning. I rub some of this lotion on at bedtime last night and within 10 minutes no pain, and I woke up this morning with no pain in my hip or lower back. I think this is going to be one of my favorite products, and going with me wherever I go to relieve pain from the gym, and anytime I have any pain.

Tim Proctor

I have customers and business partners that like our CBD better than others they were taking. Worked quicker, tasted better, and didn't need to use as much. Also, with the Warming Lotion, we have had people talk about relieving shoulder and knee pain. Had 2 ladies, that have arthritis in their hands, use it and within seconds they were able to flex their fingers with no pain. One lady even said the joint at the base of the thumb, which was swollen, had reduced in size.

We tried another kind of CBD for my husband to help his adrenals and it made it worse but when we tried Sisel's we noticed improvement almost immediately!!!!

Curt Ficenec

My personal opinion and experience. 12 years ago I was almost killed in a motorcycle accident. I have suffered with decreased ranges of motion and pain. I have also noticed diminished sleep. Many of the antiaging and regenerative therapies I have used have helped. CBD is one. I have tried many different products but never noticed a big difference until I had the Sisel CBD. I noticed a relaxed, less pain feeling immediately upon using it. I was skeptical at first because out of the dozens of other CBD's I had used, none really gave me the relief I wanted. I take it every morning and night now.

SiselSafe CBD Oil resolves my Elevated Blood Pressure problem! Over the past year, I've been bothered with elevated Systolic BP. Much to my regret (as I prefer to avoid prescription medication, because of its potentially harmful side effects) I had to start taking Amlodipine for high blood pressure. The Amlodipine did get my Systolic BP down and it did lower both the Systolic and Diastolic numbers. Upon hearing about how CBD Oil can help promote healthy blood pressure, I began taking SiselSafe CBD each night before bed. When I awoke the next morning I took my blood pressure and I was Amazed to see my reading drop down. That morning, I did not take the Amlodipine and before bed, I took a full dropper of CBD Oil. The following morning when I took my BP the results were Even Better! Thanks to SiselSafe CBD Oil I am now once again 100% FREE of prescription medication! Let me not forget to mention I also now sleep so soundly and so deeply and have such wonderful dreams! And when I awaken I feel Great - so relaxed, so calm, and in such a pleasant, happy mood! I had heard many good things about CBD Oil in the past - I also heard many horror stories about it, including the fact that contaminants have been found in CBD Oil. Back when Sisel wasn't offering a CBD product I elected - for my personal safety - to avoid all CBD products. Having been on Sisel's Products for nearly 10 years, my confidence in their purity, quality, and performance is Set in Stone. So when Sisel introduced SiselSafe CBD Oil, I immediately knew that my CBD Oil product had finally arrived!
