

SiselSafe testimonials

Liana B. — I burned my hand really bad while trying to pour scolding water into a coffee urn. I had heard that Terminator Mouth Rinse would help with burns, so I poured it onto my hand. I let it dry and poured more on. A half hour later, my hand didn't hurt and wasn't even red. The next day, there was no sign of the burn.

Anonymous — My 1 year old little girl was suffering from a **rash** all summer long, we had spent hundreds of dollars trying to clear it up. After using the Sisel Body Wash, I soon saw that the rash was disappearing. It was then that I realized I used to put pure body wash from a well known company that many people think have no toxic chemicals in it, right on my wash cloth and then straight on her back as I bathed her. The chemicals on the the cloth from that body wash were causing her body to rash up. I won't go back to using other companies because they have toxic chemicals.

TerriLois M. — OK, this is unbelievable except it happened to me! I inhaled black mold accidentally a week ago Friday while cleaning. After three days of clear mucus turning yellow, then dark yellow, then brackish brown, I started coughing up bright red blood. So triple dose of Triangle of Life, double Avenger, and added InFLUence to ramp up my immune. That stopped the coughing up blood, but still had lungs congested. I went to a walk-in clinic. Dr.'s diagnosis: allergy induced acute bronchitis and was given Prednisone, antibiotics, nose spray, inhaler, and multiple breathing treatments. Still coughing thick yellow mucus, still running nose, still hoarse, etc. But late last night my upline told me to inhale the Terminator mouthwash. I literally quite coughing immediately and could feel my lungs & sinus open up & slept all night. This morning I have a normal voice, not coughing up anything and very small sniffles (clear mucus) - in 8 HOURS! Terminator is amazing! Thank you SISEL!

Mary S. — There are so many testimonials on Terminator... safe for eyes, babies eyes when draining, just mist them, allergies, sore throat, burns , rashes, deep cuts instead of peroxide, jock itch, and also as douche. Super awesome product.

Nancy C. — Did you know... in addition to being a great prespot for hard to remove stains, AseptiClean Dish Soap is great for cleaning spills in the oven. I had a custard pie spill over and get baked onto the bottom of my oven. Coated it with AseptiClean & let it sit for a while, then scrubbed it clean. It worked like a charm!

LynnAnne H. — SISEL Asepti-clean for washing dishes saves the day! My dishwasher broke today and I had to handwash a whole load of dishes from several days. After finishing...my hands couldn't be softer!

Evy R. — (Bar Vitae Soap) I was hesitant to pay so much for a bar of soap, even though it is toxin free, but I did it and that little bar lasted over 6 weeks! And it works great too! It is smooth and creamy, feels great on my face and I don't get that dry pinched feeling like some soaps do. I was pleasantly pleased at how long a bar lasts. It smells nice too, but not an overpowering scent.

Barbara G. — Vitae Bar Soap is natural, smooth and creamy, doesn't dry your skin out, and I feel much cleaner using it. My husband panics when he opens the last bar, he loves it! Also, its good for your face too. My daughters and their families use this soap too!

R. Smith — I like Enliven Body Wash as a kids' shampoo too... it's awesome. I suggest using it as Baby Wash as well. That's what I use on the kids and even on my long hair.

SiselSafe testimonials

C. Davies — Started using Enliven body wash and the hand and body lotion.... wow! On the worst days, every crease in my hand would bleed. After 1 week using Enliven body wash, the difference is unbelievable.

Ange K. — I washed a bunch of fruits and veggies with OrganiCleanse. I put the OrganiCleanse in the water and it was clear.. didnt look like there was anything in there but plain water. I dumped the produce in, and it started pulling the waxes, pesticides and other contaminants off. I was left with a really gross waxy, grimy, gross sludge in my sink! My veggies actually tastes better because I wasn't tasting all of that weird residue! Even organic veggies are get contaminated with parasites, just think *people sneezing and touching your apples!* OrganiCleanse was designed to safely kill them as well as remove any residue from transport or the store. — From Tom Mower (Owner & Chief Scientist) "Organic has more contaminates from parasites than conventional produce. Conventional produce has more toxins than Organic. This is why OrganiCleanse is designed to detoxify toxins and kill parasites and wash away dirt and contaminants in one. Best of all it uses surfactants that rinse cleanly away and remove soils you would never thought were in the produce. Try cleaning organic in your sink with water and then clean with OrganiCleanse after and you will find dirty water as this formula goes deeply into the peel and emulsifies the contaminates and leeches them out into the water where they wash off clean." — So test it, try rinsing organic fruits and veg as usual, then clean the same produce with OrganiCleanse and check out the water. It's gonna be gross!! And here's the super cool part: You can even wash meat! Cleaning chicken prior to cooking will kill germs!! And, it tastes better too!

Emma M. — I soaked some freshly caught catfish overnight in OrganiCleanse and it pulled out the mud and the muddy taste.. the fish was delicious!!

Joyce K. — When I told my husband that Strawberries were the worst and found out that Sisel had a Product that would take all the Toxins out of them, he said, "order it!!" You will not believe what came out in the water!! I suggest that you order it too - Then tell me what you think when you see the water you washed them in - With just a very little OrganiCleanse!

Barb G. — This evening I was able to introduce family members and their in-laws to OrganiCleanse! They were astonished of what came off their fruits and vegetables. And they were amazed at how much better the fruit and fresh vegetables tasted after being cleaned

Linda W. — One of my Distributors called yesterday so excited. She wanted to make Homemade Chicken Soup...so she washed all of her vegetables AND the chicken with OrganiCleanse. She said her soup was AMAZING and the BEST Chicken Soup she has ever made...she said the flavors just Popped!!!!

T. Donnelly — I was cleaning off the cover of our pool after the winter and the surface had deteriorated and was loaded with decomposed organic grime, leaves, dirt, pollen.....the works. I got it on my hands and could not get them clean or get rid of the odor no matter how much soap, cleanser I used. Standing at the sink, I saw the OrganiCleanse. If that can clean a pesticide off my strawberries, why not try it. Sure enough it took one rinse with it and the gunk was right off without hardly scrubbing. I think I might put this in my dispenser!

L. Hagar — I just used ORGANICLEANSE to clean the lichen off of my metal patio furniture. Just sprayed it on from a bottle mixed with some water...it sort of bubbled up. A very light scrub, rinse...and gone!

SiselSafe testimonials

Linda W. — Okay, I have been "excitedly waiting with anticipation" to post this Testimony! I had to be sure it worked first! I had someone who was diagnosed with Scabies (Itch Mites) back in December. He had been given a Prescription Cream, but had no success. He was absolutely miserable with the itching. They were all over his hands and feet, legs, inner thighs, stomach and lower back. I had him try everything I knew to help relieve the itching and researched all the home remedies I could to get rid of these little devils. Most of them were pretty bad, and toxic, and others so expensive. He has been out of work since November and has no insurance. I even gave him the Terminator which provided short term relief from the itching. I looked at all of our products and did an awful lot of praying. I felt so bad for him because 30 years ago, my daughter got Scabies after spending the weekend with a classmate. One night about 2 weeks ago, while lying in my bed, it hit me! OrganiCleanse!!!! I figured if that stuff can kill parasites, pull all the junk out of our fruits and vegetables and it is TOXIN FREE...Why NOT? Soooo I gave this gentleman the OrganiCleanse with these instructions. Put it on your body and leave it on for 3 hours and wash it off...Repeat for 3 days. Well, the first 24 hours his skin looked better and some places were completely dried up. EVERY day got better. All the remedies I had read about, including the Prescription Cream, stated you may have some itching for up to 14 days after a treatment of any kind. Each day his itching got less and less...and today he told me...The Scabies are GONE! No New Breakouts! All the places are healed up too! (I think it may have worked even faster had he left it on all night, but the stuff is a little sticky as you know...) BTW I also had him to wash all of his bedding and his clothes in the OrganiCleanse. I LOVE MY SISEL!!!!

Liana B. — I have been using Sisel Shampoo and Conditioner for almost 8 years now, and I will never use anything else! When I first started using them, it had been about 2 years since my last hair cut. I don't like to have my hair cut so I kept putting it off. Just about a month after starting them, I decided to get my hair done for my birthday and I went to a family friend who had her own salon at her house. While I was there, she said "Wow Liana, its been a long time since I've cut your hair. Where have you been going?" I said "I haven't been anywhere. I only come to you to get my hair cut." She was shocked. She said "Really? Because you have no split ends. Are you sure you haven't gone anywhere? I've NEVER seen someone have such healthy hair, with no split ends, after 2 years without a hair cut." I told her it must be the new shampoo and conditioner I was using... she thought about it for a minute and said "It must be, because that is the ONLY reason that would make sense, because I've honestly never seen this before. I'll have to try it for myself too!" I thought that conversation was just the greatest compliment I could've gotten about my hair. I was super happy and like I said, because of that conversation and how great I felt after her comments, I will never use another shampoo and conditioner. I get compliments on how beautiful my hair is all the time and I owe it all to Sisel!

Jean S. — Jessie is relieved to end her 11-year quest for the best "natural" dog shampoo! Sisel Shampoo has done the trick, and she is celebrating a soft, shiny and manageable coat. She is also very happy that her shampoo is kind to our planet!

Andy G. — Sapphire Shampoo: Its the best shampoo I have ever used to date. I have short hair. I find that with just one wash, it penetrates into all of my head's hair and when rinsing out, my hair has that squeaky clean feel. When dry, its very soft to touch and looks healthier, softer and shiny! Plus a nice fresh aroma!

SiselSafe testimonials

Barb G. — InnerChi and Sapphire Shampoo and Conditioner. I remember back when these products were coming out [Tom Mower](#) said they would give us hair like our youth. And I can tell you it does! I am soon to be 58, yesterday I went to put a clip in my hair to hold it back, I have noticed my hair seemed fuller, but didn't realize how much until I tried to clip my hair all back and the clip attached for less than 1 second and shot clear across the room. Lucky no one was in there with me might of hurt them. I had 5-6 inches cut off my hair before I went Cancun last month, my hair dresser saw me and said I don't know what you are doing but I swear your hair has grown 3-4 inches in 6 weeks. My hair has always grown about 1 inch per month, but now it is growing much faster. So ladies, if you have thinning hair, pre or post menopausal hair loss, don't waste any time, get on these products now! You will be amazed of the change!

Tiziana V. — I just finished cleaning my vacation house at the seaside with Vibrant Laundry Detergent and I'm amazed, astonished. I've cleaned everything up with just one product. Everything shines with Vibrant...floors, windows, everything. It's really a magic product.

Jessica B. — I wish I would've taken a photo of what SISEL laundry detergent does!! My son's white football pants were grey and grass stained, now they're white and stain free!

Sue B. — Had to share again because I love it! So we had run out of Vibrant Laundry Detergent, and had to buy a store brand, supposedly with "stain-fighting bleach alternative". Well I washed my shirt TWO times and the stain didn't come out. It wasn't even a grease stain! Just got our Vibrant yesterday, washed my shirt in it once and VOILA, stain's all gone! Will NEVER be without Vibrant again! And I love that I don't have to use dryer sheets or softener, even with hard water! Vibrant is worth every penny! Thanks Tom!

John B. — This is my testimonial about the Vibrant Laundry Detergent. I have recorded how many washes I get out of one bottle. I got 67 washes out of one bottle. It amazes me how many washes from one bottle. For 30minutes to let the clothes soak. I then put the washing machine on. This gives the best results.

Andy G. — VIBRANT Laundry Detergent. another awesome cleaning product, its nice to have that fresh clean look and feel with your clothes & aroma so nice! Without that staticness & that greasy residue feel.

Barb G. — I received this email this evening from one of my daughter's co-workers on our Vibrant Laundry Detergent. "Hi Barb, This is Tiffany (I work with Jessica) she was kind enough to borrow me some of the Vibrant Laundry Detergent to try to remove yellow stains from the armpits of my daughter's white t-shirts and it works! I literally feel like I have tried everything and this is the only thing that I have found that works!! I would like to buy 2 bottles of it, please let me know how to go about doing so. Thank you!! Tiff"

Sandy B. — My husband has started a new job & comes home with dirty greasy clothes. I haven't got time for soaking. So put my brain into action & decided to put about half cup of Vibrant Laundry Detergent in a spray bottle & quarter of a cup of water & shook it well & sprayed & left them sit for half hour. My own pre-soaker!!! WOW IT IS BRILLIANT.

Adria I. — I went in for a 6mo dental cleaning and I was in and out within ten minutes. The Dr. complimented me on how healthy my gums were. I told them about our outstanding SupraShine and Terminator products. I spent more time talking up my products than on the actual cleaning! What awesome products we have!!!!

SiselSafe testimonials

Jeanne M. — My teeth have never been this white and the Suprashine tastes so fresh! I also noticed my gums are not hurting like they were!

Lynn M. — I love both the SupraShine and Terminator! I had a crown replaced about a year and half ago. After six months I began to have pain. My neighbor said, I love my dentist, come see him regarding this. I did. The dentist was happy to have me as his new patient. I changed over because it was closer than original dentist of 20 years. He said, I'm going to do an adjustment, sanding down the crown. Then returned, he suggested an appliance to stop teeth grinding. Never was told this before. I ordered this appliance. 600.00 That did not help either. Now six months, another cleaning X-rays. The dentist discovers, I need bone operation going through the gum. I was not happy. I spoke to my business partner, she suggested to use Terminator & SupraShine. Keep using it and don't stop! Please do not get an operation, or allow root canal etc. I have been faithfully using the toothpaste. I was not as faithful with the Terminator at the time. Since I have been using the Terminator, and holding it in my mouth, for 45 seconds to a minute. I am almost pain free! Our products work! Thanks [Tom Mower](#) and Dorothy for the suggestion how to heal this all with our amazing products! No operation, no new crown! For me I use them both twice a day. I also carry the 2 ounce bottle of terminator in my purse and use for breath freshener, also helps my teeth feel clean. The little 2 ounce bottle is so handy, and can be used for antiseptic spray on a cut. Easy to use with spray application!

Fred S. — I have a great dental plan and go to my hygienist every 6 months and used to hate the trip. I've been using the SupraShine and Terminator and my last two dental visits, I've not asked for that flavored stuff she used to apply to numb my gums. If you experience the cleanings I'm pretty sure you go thru the pocket things and mine just keep improving. I had one pocket lower left front that she always called out an 8 and the rest ranged from 4's to 5's. Last time I went that 8 was a 5 and also I notice when I floss, no more bleeding, so folks that chlorine dioxide that is in both the paste and mouthwash really works. It's a proven fact that problems with your gums and dental hygiene can be problematic to cardio health and now I'm feeling quite comfortable w/out worries about that!!!

Betsy G. — Months ago my dentist said there was a problem with an infection that had gotten in where it shouldn't have under a tooth. He said we may have to pull it. I added in Sisel toothpaste AND Terminator mouthwash, and the dentist said it looks FINE, keep it up!!!

Alia V. — I read a great article on how toxic fluoride is and how it can cause Thyroid issues, which I'm learning first hand! grrrr... Wish I new better but at least I can protect my kids as much as I can from the toxic effects from Fluoride. Sisel's fluoride-free Dental Care for us!

A. Grainger — SUPRASHINE Toothpaste & TERMINATOR Mouth Wash. Brilliant to say the least! The results are fantastic! The freshness, super smooth sensation you have when sliding your tongue across your teeth is such a good a feeling. Also no more of that burning or on fire red gums syndrome!

Kate B. — My husband spent 7 days in ICU with pneumonia, very high antibiotics. His mouth was sore and caked in thrush. The hospital mouth washes and lozengers did nothing. ONE DAY ON TERMINATOR AND IT CLEARED UP. AMAZING PRODUCT. Thanks Sisel!

Geraldene D. — My husband had wisdom tooth pain and it would bleed sometimes... since removing sugar etc and using SupraShi Terminator... no pain and bleeding... amazing!
